

## Care Instructions

- Hydra Wall is 100% natural.
- Color variations are due to the naturalness of the product and to the quantity of chlorophyll which was present in the plant at the moment it was harvested.
- The stabilization process of the Hydra Wall prevents the possibility of attracting insects.
- The stabilization process makes Hydra Wall extremely resistant to dust. In the unlikely event that you notice a deposit of dust, just remove it by padding it with a cloth for antistatic dust.
- must not be watered or sprayed.
- Tin snips are recommended when cutting the product.

Hydra Wall is hand made in Italy. Small imperfections, color variations and the presence of small natural elements like small leaves or pine needles are not to be considered as product flaws but a witness of the natural characteristics of Verde.
